Every Foreigner Within Reach

Miss Stone Still Held by the
Brigands—State Department is Hopeful.

BY THE NEW ASSOCIATED PRESS—P.M.
LONDON, Oct. 15.—[By Atlantic Bu-
charest.] "It is announced from Bu-
charest," says a dispatch to the Daily Mail from Vienna, "that Herr Rosenthal, the representative of a Ger-
man firm, has been kidnaped by Bul-
garian brigands at Silesia. The Bul-
garian government has sent a pro-
motion to the Bulgarian govern-
ment, and the Bulgarian govern-
ment has ordered troops to pursue the
brigands.

"It is rumored that the Macedonian
committee has decided to capture every
foreigner within reach in order to at-
tract European attention to the
state of public security in Macedonia."

MISS STONE STILL HELD.

BY THE NEW ASSOCIATED PRESS—P.M.
CONSTANTINOPLE, Oct. 14.—Neither Mr. Eddy nor Mr. Haskell, the
missionaries, has yet been able to get
in touch with the brigands, in order to
arrange as to the amount of the
ransom for Miss Stone.

HOPE OF SUCCESS.

BY THE NEW ASSOCIATED PRESS—P.M.
WASHINGTON, Oct. 14.—Word comes from
Boston, in a special to the World, that Mrs. Stone, mother of Miss Ellen
M. Stone, is stricken under the strain
of the anxiety concerning her daughter.
Mrs. Stone is more than eighty
years of age, and she lived in Boston
until she was about twenty years old.
She is such that her friends fear that she
will die of the suspense. Every effort
has been made to keep the details of
the situation from her, in an effort to
save her from the shocks of alternate
hope and despondency, as varying news
and reports are spread about regarding
Miss Stone's fate.

BY THE NEW ASSOCIATED PRESS—P.M.
NEW YORK, Oct. 14.—Rev. Charles
C. Creegan, district secretary of the
American Board of Foreign Missions,

gave out a letter today, part of which
reads as follows:

"To the American People: The case
of Miss Stone, now in the hands of
Turkish brigands, has undergone no
material change. In the office of the
American Board and among her im-
mediate friends, the greatest anxiety
prevails. Our government at Wash-
ington has not defined the opinion
united by President Roosevelt, that
there is but one thing to do, and that
is to raise the sum demanded for her
ransom, and that as quickly as pos-
sible. Of this amount, \$60,000 has al-
ready been subscribed, the largest part
in Boston and immediate vicinity.
A multitude of her neighbors, in ev-
ery condition of life, have ponied
their gift into the Boston office for
her deliverance, but it is insufficient.
Fifty thousand dollars more are
required. We appeal now to those
among us who, by the blessing of God
have larger financial ability to sup-
plement the contributions of their
neighbors, so that the necessary sum
may be realized."

"An answer is anxiously awaited at
the office of the American Board, No.
15 East Twenty-second street, New
York, where subscriptions to the un-
dersigned will be received.

"C. C. CREGAN,
"District Secretary."
HENRY A. STIMSON,
"Recording Secretary."

Dr. Creegan said that the board had
received \$60,000 from the United
States government that the only
thing that could be done was to raise
the money necessary for the payment of
the ransom.

MR. EDDY'S FEARS.

BY THE NEW ASSOCIATED PRESS—P.M.
CONSTANTINOPLE, Oct. 14.—It
transpires that the Turkish commander
had completed preparations to
execute Miss Stone on noon last
Saturday. Spencer Eddy, secretary of
the United States legation, received
advice that further activity would re-
sult in the death of Miss Stone, and at
3 o'clock Saturday morning he pro-
ceeded to the residence of the Minister
Tewfik Pasha, and demanded the im-
mediate retirement of the Turkish
troops. This was carried out, and the
Bulgarian forces followed suit.

Eddy's action has the unanimous ap-
proval of the members of the diplo-
matic corps, who are convinced that
efforts to liberate Miss Stone will in-
fallibly result in her murder.

refused to give a hint as to the
subject discussed, he indicated that their
conversation was mainly confined to
three topics of special interest, reci-

if the President should support them.

Lodge has been conspicuously con-

of the New York, who made an addition to his statement as to the first news he received from Capt. Allen at Key West on May 20, concerning the presence of the Spanish fleet at Santiago. The addition was as follows:

"The information obtained at that time from Capt. Allen and reported to the commander-in-chief some time near noon, was not considered sufficient at that time to make a change in the plan that had already been adopted."

Capt. Chadwick also returned to the stand for the purpose of correcting his former evidence.

CAPT. COOK CALLED.

After previous witnesses had corrected their testimony, Capt. Cook was called. He was questioned by Mr. Hanna. He said he had been at Key West on May 19.

"What information did you have at that time concerning the whereabouts of Cervera's fleet?" asked Mr. Hanna.

"My impressions now are simply from rumor, that they had left the Canary Islands and a part of them had been sighted at Martinique, and from similar information, or perhaps information sent by the Harvard, that they had gone to Curacao. That is all I know in this connection."

Giving the reasons for the departure of the "Flying Squadron" for Cervera, Capt. Cook said the squadron had been sent to that port to intercept and meet the Spanish squadron, it having been determined, as we believed at that time, to make Cienfuegos their objective port." He had understood that the Spanish fleet carried munitions of war for Havana, and it was believed that they would go to Cienfuegos because of its accessibility to the harbor.

Capt. Cook detailed a conversation between Commodore Schley and Capt. Chester while the squadron was en route to Cienfuegos. He said there had been talk between them about coaling on the southern coast of Cuba.

"The only thing I recollect," he said, "was that Commodore Schley questioned Capt. Chester very closely as to the facilities for coaling ships on the southern side of Cuba."

"Do you know what information was received?"

BAD PLACE TO COAL.

"I think they consulted a chart at the time and something was said about Capt. Cruz. I recollect that he was sailing at the chart there and it did not seem to be a favorable place. I know the subject of coaling was early considered, even before leaving Key West."

Admiral Dewey: "Was your answer that Capt. Cruz did or did not look like a favorable place? I did not quite understand that."

"I said I recollect very well my impressions at that time and something was said about Capt. Cruz. I recollect that he was sailing at the chart there and it did not seem to be a favorable place. I know the subject of coaling was early considered, even before leaving Key West."

Admiral Dewey: "Was your answer that Capt. Cruz did or did not look like a favorable place? I did not quite understand that."

"I said I recollect very well my impressions at that time and something was said about Capt. Cruz. I recollect that he was sailing at the chart there and it did not seem to be a favorable place. I know the subject of coaling was early considered, even before leaving Key West."

Mr. Hanna: "Perhaps the court would like to hear why you thought so."

"I could not well see how the larger ships could get far enough in there to coale, and I recollect that Capt. Cruz had a smooth enough to go alongside and coal ships."

Capt. Cook recalled the meeting of the Marlinhead with the "Flying Squadron" en route to Cienfuegos, but could not say exactly where, except the fact that the Scorpions had delivered to the Brooklyn any information from the Eagle at that time.

"We did not receive any information," he said, "and did not consider the instant important."

BLOCKADE OF CIENFUEGOS.

Capt. Cook said that upon arriving off Cienfuegos on the morning of May 22, a blockade was immediately established, as the firing of guns was heard, and it was believed that Cervera had arrived, and a salute in honor of his appearance was given.

Earthworks on the shore were also seen, but they were not fired upon, because it was considered desirable not to commence an expensive bombardment.

"I think between that time and the arrival of the Aduls, it was presumed that the whole beach was occupied," he said. "We saw cavalry and others on the beach. The possibility of a boat landing was talked of. The idea was that we would have to go in pretty well to the westward to get to the beach. We had a long conversation with the commodore about it, but I did not recollect. On the arrival of the Aduls we fully expected to get all the information."

SAW SIGNAL LIGHTS.

"Did you see any signal lights on shore while you were there?"

"For the first thing after we arrived, on May 22."

"Where were those signal lights, and what were they?"

"I judged them to have been about six or seven miles to the westward, three miles, one ahead of the other. They were very distinct. There was some discussion on the ship whether these were signals that the Spanish ships were sending or whether they were already there. But of one thing I am very positive, that the commodore was satisfied he had them in there at that time."

"There could have been no doubt whatever, from the arrangement of those lights, that they were intended as signals."

"On no occasion appearing at the time they did arrive and remain so long; but we could not determine from whom or to whom they were sent."

Mr. Hanna: "Were you present at an interview between Capt. McCalla and the commodore?"

"I was in consultation."

"Briefly and exactly as you can give it, what occurred?"

"We talked on various subjects at first. I think Capt. McCalla informed him he had mining materials for the insurgents and that he was going to communicate with the insurgent camp. We brought up the question of the camp and where it was, and then the commodore said to him: 'We have seen the peculiar lights, one ahead of the other, and they are signals that we made out what they are, and I believe it is something in connection with the Spanish fleet.' Capt. McCalla gave a short, sharp, up his hands and said: 'That's all right, I'll come to the insurgent camp.' Then want to communicate with you,' and added: 'Well, I can go there and find out at once.' The commodore told him to go to see me as soon as possible and added: 'You can send a boat across and let me know as soon as possible.'

MCCALLA WAS CHEERFUL.

"Then the subject of coaling came up again, about the great difficulty we were going to have in coaling from cables, and Capt. McCalla said: 'I need not tell you that there is any coal to be obtained.' He was always cheerful about everything. He started from the ship almost immediately and said he must get off."

ARRIVAL OF THE ADULS.

"In the mean time, doors connected with that was the arrival of the Aduls. This steamer came in from Jamaica and reported that the Spanish fleet had gone into Santiago and had left on the 19th. I recollect that particularly because that seemed to cause some apprehension, as they had reached Cienfuegos. It was a suspicious craft. They did not give any clear reason for going in except that they had been communicating with their subjects, and my conversation with the commodore my impressions were that he looked upon that as entirely suspicious. Not understanding the object and not knowing exactly his object, I said some-

thing to him about letting the steamship go in safe, and I do not know if he got information from her. If the captain does not give it, I will certainly get it out of some of the men on board. It is my argument, when she came in, that an officer should go aboard and get information from them. She did not come out. That confirmed him still more that they were there."

POSITIVE INFORMATION.

"Then the Eagle came down in the evening and reported that they communicated with the insurgents, and that the Spanish squadron was not in Cienfuegos."

"That information was given in positive form, was it?"

Speaking of the coal supply of the vessels, while at Cienfuegos, Capt. Cook said that his only anxiety was bound to get information from her. If the captain does not give it, I will certainly get it out of some of the men on board. It is my argument, when she came in, that an officer should go aboard and get information from them. She did not come out. That confirmed him still more that they were there."

NEW CANON ON DIVORCE

*House of Deputies in
Favor of It.*

*Huntington's Amend-
ment Voted Down.*

*Episcopal Joint Commission to
Consider Relations of Cap-
ital and Labor.*

BY THE NEW ASSOCIATED PRESS—P.M.J.
SAN FRANCISCO. Oct. 14.—The House of Deputies of the Episcopal Church of America, sitting as a committee of the whole, today adopted the canon concerning marriage and divorce of divorced persons for causes not arising previous to their former marriage. The canon was adopted just as it came from the House of Bishops. The vote stood 162 for, 158 against.

The amendment of Dr. Huntington of New York making an exception in the case of the innocent party to a divorce was rejected by a vote of 152 to 172. The result of the vote in the committee of the whole was reported to the House of Deputies, who will vote on the matter. The result, however, may not be the same for in the house the vote of thirty delegations is required to carry a measure, the divided delegations voting in count among themselves. No final word, for a final vote by the house, shall be taken tomorrow.

Previous to this action in committee of the whole, the House of Deputies accepted the resolution presented by Dr. McKee of Washington providing for a standing joint commission on both houses to consider the relations of labor and capital. It is to consist of three bishops, three clergymen, three laymen, and shall report its proceedings to each general convention.

The afternoon session of the House of Deputies was held behind closed doors and was devoted entirely to consideration and voting on the five nominations for missionary bishops handed down from the House of Bishops. The names recommended were the following: Rev. James Addison Ingel, district of Hankow; Rev. Charles H. Brent, district of the Philippines; Rev. Frederick William Kastor, district of Oregon; Rev. William B. Brewster, district of Porto Rico. The only nomination rejected was that of Rev. Charles Campbell Pierce to be missionary bishop of North Dakota.

Rev. Dr. B. P. Bishop has created the missionary district of Honolulu, to take effect April 1, 1902.

Consent was given, the House of Deputies concurring, for the election of a new missionary bishop for this district during the interval between this session and the next general convention. A letter was sent to the synod of Mexico stating the terms which must be met before a new bishop for that country can be appointed.

Several canonical questions were discussed by the bishops during the day, the further revision of the canons being then referred to the next general convention.

BEGINNING OF THE END.

BY THE NEW ASSOCIATED PRESS—P.M.J.
SAN FRANCISCO. Oct. 14.—The third and last week of the triennial convention of the Episcopal Church of America opened today with full attendance in both houses. Much work remains to be done during the limited time remaining before the hour fixed for final adjournment on Thursday, and there is a possibility that night sessions may become necessary.

The following canonical service in the House of Deputies this morning was conducted by Rev. H. Talbot Rogers of Ford du Lac, the benediction being pronounced by Bishop Weiss of Spokane.

DIVORCE QUESTION.

EVOKE BRITISH SYMPATHY.

BY THE NEW ASSOCIATED PRESS—P.M.J.
NEW YORK. Oct. 14.—A dispatch to the New York Times quotes the London Times as commenting editorially on the discussion regarding the marriage and divorce question by the committee of the Protestant Episcopal Church at San Francisco. The London Times says it sympathizes with the bishops in the difficulties which they and the clergy throughout America have to encounter. The committee of the moribund church is subject to enlightened Americans, however confident of their institutions they may be, speak despondently, though they may just return to criticisms that the marriage laws in England are not above reproach.

The most obvious reforms in America, says the London Times, are to pass a national law on the subject, but apart from the constitutional impediments in the way of such a step, the condition of public opinion does not encourage such a measure. In the five years hence, another Protestant Episcopal convention may be debating the same problem, with no clearer prospect of its solution than exists at present.

HOUSE OF BISHOPS.

HAWAIIAN PROBLEM CURED.

BY THE NEW ASSOCIATED PRESS—P.M.J.
SAN FRANCISCO. Oct. 14.—The House of Bishops, so far as its action goes, has settled the Hawaiian church problem, through the conference of its committee, consisting of the bishops of Pennsylvania, South Carolina, and California, with Bishop of Honolulu. The terms of settlement in brief are the resignation of the Bishop of Honolulu to take effect the first of next April, the formation of the Hawaiian Diocese, with the new district, to be placed for the present in charge of a bishop designated by the preceding bishop.

Resolutions were passed recognizing the diocese under which Bishop Willis has labored and the good work he has done for many years, and giving him an honorary seat in the House of Bishops.

REPORT OF CANONS.

The House of Bishops took up the report of the joint committee on revising of canons. It was decided to limit the time for the election of a bishop to three months. If the diocese voting are not heard from in that time, the result will be to announce.

The next decision reached was that if a bishop becomes permanently disabled, his position may be declared vacant.

It was agreed that before a bishop for a foreign country is chosen, the bishop must be present, unless he has been duly elected and will follow a form of worship in accordance with established usage. In case of disagreement between a bishop and a parish, it was voted that in the future a council of conciliation may be called by the bishop.

It was provided that when a bishop

resigns between sessions of the general convention, the House of Bishops shall meet, as a house, to consider the resignation.

The bishops adopted a canon providing that no woman can be formally set apart as a deaconess until she has attained the age of 30 years, and declaring that marriage rendered her incapable of ordination.

All the remaining portions of the report of the commission on canons was recommended by the bishops to be reported to the next general convention.

REPORT ADOPTED.

The House of Bishops agreed to the committee's report on marginal readings already accepted by the House of Deputies and also to the McKinley memorial resolutions.

The following amendment to Article X of the constitution was adopted by the House of Bishops:

"Provided, that nothing in this article shall be construed as restricting the authority of the bishops of the church to take such action as may be provided by canon or by the Book of Common Prayer, and by the Book of Canonization, for the use of special forms of worship."

This is intended to apply especially in case of Swedish congregations in the working people of the island trades unions. Mr. Gompers desired that Gov. Hunt and other Porto Rico officials be informed of the legitimate character of Señor Iglesias' mission, in order that he might not be interfered with. The President told Mr. Gompers that he believed in the national organization of laboring men, and that every right of Señor Iglesias would be protected.

Chief Justice Fuller and the Associate Justices of the Supreme Court visited the White House in a body at 1 o'clock to pay their respects to the President.

TILLEY UNDER FIRE.

ANOTHER MAILED INQUIRY.

BY THE NEW ASSOCIATED PRESS—P.M.J.

WASHINGTON. Oct. 14.—Rear-Admiral Robley D. Evans left here this afternoon for San Francisco, where he will accompany Rear-Admiral Casey, commanding the Pacific Station, on the flagship Wisconsin, to Tutuila, Samoa. Admiral Casey is charged with the investigation of certain allegations made by Captain T. G. Tilley concerning the moral character of Capt. B. F. Tilley, naval governor of Tutuila. In case it should be found necessary to order a naval court for the trial of Capt. Tilley, Admiral Evans will be appointed president of the court. The remainder of the details follow: Capt. Cooper, G. W. Thomas, Murray, Reiter and Harrington, United States Marine Corps Judge Advocate. These officers will sail on the Solace from San Francisco.

HOUSE OF DEPUTIES.

VOTE ON DIVORCE CANON.

BY THE NEW ASSOCIATED PRESS—A.M.J.

SAN FRANCISCO. Oct. 14.—As soon as the House of Deputies had been called to order, and the minutes read, the House voted to accept the resolutions providing for a permanent commission on capital and labor taken from the calendar by a two-thirds vote, and they were adopted almost unanimously.

The committee of the whole, prompted by half past ten, resumed discussion of the proposed canon on marriage and divorce, matrimonial and the Rev. Hudson of New York. The Texan, repudiated certain charges that had been made of the moral condition of society in Roman Catholic countries on account of the non-permission of divorce, and Rev. Dr. Cameron Mann of West Missouri, sustained Mr. Stuck and while declaring that perhaps he thought there were cases where the innocent party in divorce for adultery should be allowed to marry, yet he favored the proposition not to require or allow the clergy of the church to officiate at such marriages, on account of the burden of having to pass on the question of innocence without proper time or means for investigation.

Rev. Dr. Martin of Washington, who had held his interpretation of the Lord's words, said he did not want to be understood as changing those taking a different view with want of knowledge or scholarship. He cited, however, with great emphasis, the fact that Christ did not intend to absolutely deny the right to marry to the innocent party, and declared that he had the uniform authority of the church.

Dr. Martin of Washington, who had held his interpretation of the Lord's words, said he did not want to be understood as changing those taking a different view with want of knowledge or scholarship. He cited, however, with great emphasis, the fact that Christ did not intend to absolutely deny the right to marry to the innocent party, and declared that he had the uniform authority of the church.

Memorial Arch Association.

WASHINGTON, Oct. 14.—The gen-

eral organization of the William McKinley Memorial Arch Association was completed today. The officers are: Henry B. MacFarland president; Lyman J. Gandy treasurer; Thomas W. Way of Colorado vice-president. President Roosevelt and the members of the Cabinet were elected honorary members of the association. An appeal to the public will be issued shortly.

Smallest Among Indians.

WASHINGTON, Oct. 14.—The smallest epidemic prevails among the Indian reservations, now includes new cases at the Southern Ute reservation, Colorado; and the superintendent, teacher, cook and seven pupils at the Pine Ridge school, Pine Ridge, South Dakota, and Williamsburg, Kansas. In addition to this, the agents for Arizona Indians reports that there are several smallpox cases among Mexicans at Phoenix, in uncomfortable proximity to the Indians.

GOV. DOLE DENIES THAT HE IS THINKING OF RESIGNING.

BY DIRECT WIRE TO THE TIMES.

HONOLULU. Oct. 8.—[Wired from San Francisco, Oct. 14.—Exclusive Dispatch.] Gov. Dole declares flatly that publications stating that he would resign are without foundation. He declares that he has not resigned, that he has no intention of resigning, and that he fully expects to serve out his term.

New SOURCE OF RIVER FOUND.

The Bishop Museum has an exploring party in the field, surveying and measuring the rainfall and water supply of this region, in order to determine whether it is practicable to store water in the mountains and carry it to the sugar plantations in summer. The endowment of the museum includes lands in Hawaii and Hamakua, on the island of Hawaii, in which are the Waipio and other gulches that extend from the sea to the highest peaks of the Kohala Mountains. The party has made a number of important geographical discoveries. Source of Waipio River has been found several miles away in the mountain than was supposed, in the watershed of the main lake, and on the high seas to maintain shop and factories for the building of railroad equipment and steamships, and to carry on the business of coal mining, etc.

Recent developments have led to the assertion in certain circles that Hill has \$1,000,000 worth of Northern Pacific stock in excess of his own and controlled by the Maxsons, people, and that he is going to use his power to carry out several pet schemes. One of these is to be rid of President Mellon, who is a most annoying thorn in the side of the financial world.

Jim Hill's mission is to New York, where he will arrive tonight, is for the purpose of organizing the United States Railroad Company. The object of the organization, to quote an attorney, is "the acquiring of railroad shares and railroad property, steamship lines and for the operation of the same within the United States and on the high seas, and on the high seas to maintain shop and factories for the building of railroad equipment and steamships, and to carry on the business of coal mining, etc."

As Keene is one of the leaders in the market, and therefore any official utterance of the firm must be in line with his position, the circular was interesting in that its whole trend was bullish. As the annual report of the company has not yet been submitted for the year ended June 30, the firm makes estimates of the firm's financial resources, taking the monthly statements of gross and net earnings so far as these have been published. Following is the showing:

Receipts: Gross transportation re-

ceipts, \$75,820,870; rentals (estimated

same as last year) \$465,325; income

from sinking funds (estimated same

as last year) \$330,547; total, \$80,186,755.

Disbursements: Operating expenses,

\$51,836,551; interest on funded debt (est-

imated same as last year) \$14,728,532;

taxes and rents (estimated same as last

year) \$24,160,752; total, \$80,776,867.

Assuming that the land sales for 1901

were equal to 1900, the new in-

come would show \$ per cent. on the

outstanding capital of the company.

The company owns 17,000,000 acres of

land, all on board well.

REUBEN HARRIMAN MEETING.

VANGUARD AT SALT LAKE.

BY DIRECT WIRE TO THE TIMES.

SALT LAKE CITY (Utah) Oct. 14.—[Exclusive Dispatch.] The vanguard of the Harriman railroad representatives, who are to meet here tomorrow to inaugurate important changes in connection with the passenger and freight business of the big syndicate, arrived here today. Other members are expected tomorrow morning. Among those who came in today are H. McCullough, third vice-president and freight traffic manager; W. A. Gardner, general manager, and W. R. Kniskern, general passenger agent of the Chicago and Northwestern; also E. L. Lomax, general passenger and ticket agent for the Union Pacific; J. C. Strode, traffic director for the Harriman lines, and T. M. Schumacher, acting traffic manager for the Oregon Short Line, will come in tomorrow morning from Chicago. In addition to those named, there will be present representatives of the Southern Pacific, Oregon Railroad and Navigation Company, and the Oregon Short Line. President Horace G. Burn of the Union Pacific is also expected to be in attendance.

The subjects of traffic, operation and new lines will be discussed. A new transcontinental line, calculated to reduce the running time between Chi-

WINS TO THE TIMES!
NEW YORK, Oct. 14.—[Exclusive Dispatch.]—The Tribune's London correspondent says darkest Africa is entering upon a phase of total eclipse so far as the newspapers are concerned. Kitchener is a military dictator, and the country knows what he chooses to reveal. He has proclaimed martial law in Cape Colony and is attempting to raise a rebellion at once odious and impossible.

If he succeeds, the rebellion will be stamped out in Cape Colony and the Boers, repulsed from the invasion of Natal, will be gradually starved out on their own territory. Much depends on the temper and ability of the Boers respecting reprisals. They will lose the support of their Cape colleagues there, and all themselves of the resources of retaliation, horrible as the alternative may be. The question is discussed with bated breath in London, and the opinion is expressed that Lord Kitchener and Lord Milner have waited before adopting strenuous measures until the present moment when Botha, De Wet and De la Rey have given up all hope and unable to capture British soldiers and retreat by shooting them in return for the hanging of Cape farmers and the execution of Lotter's death sentence.

The censorship of news from South Africa is regarded by many as a blessing in disguise. Neither the results of the trials nor the movements of the revolutionaries which may be invited, will be exhilarating reading for the present year of civilization and grace.

The issue of supreme interest, apart from this hideous theme, is Gen. Buller's fate, which lies in the hollow of the King's hand. Broderick's departure for Balmoral, as was expected Saturday evening, has definitely settled, we are sudden, and consequently it would be natural to connect it with Gen. Buller's outbreak as a talking general. He will return to London after knowing the King's mind respecting Gen. Buller's indiscretion in violating the requirements of good military and social form. The King's intervention in the affair was enacted but two or three days ago on the arrival of steamer Curacao from San Francisco.

It

appears that about the middle of last week the report was circulated in Ensenada that the fugitive cashier had reached Mexico. It was said on the spot that one had received a telegram to the effect that he would leave San Francisco on that boat. For hours before the boat was due in port, practically the entire citizens of San Pedro along the water front to receive him.

His arrival was immensely gratified to his friends.

Some vigorous measures would seem indispensable when military writers are instituting comparisons between Buller and Adm. Byng, whom Samuel Johnson could not save from obliquity.

EVALINING CASSIDY.

The posthumous examination of Peter Cassidy, charged with the murder of James Posey on the night of the 8th inst., was commenced this morning in the Justice Court, but as yet nothing new has been developed. Officers Coutts and Dr. Hearne were the principal witnesses examined. The courtroom was fairly packed with people who are interested in the outcome of the double tragedy.

THE SCHLEY INQUIRY.
It was very generally anticipated, the testimony elicited by the Schley court of inquiry tends more and more strongly toward the complete vindication of that brave and gallant naval officer. The inquiry is, presumably, drawing near its close. Thus far, nothing whatever has developed tending to show that Admiral Schley did less than his whole duty in the pursuit and final destruction of the Spanish fleet. On the contrary, plenty of evidence has been brought forward to prove that Admiral Schley, on that memorable occasion, discharged his duties in an exceptionally brilliant and satisfactory manner, with much credit to himself, to the force under his command, and with honor to the American navy, of which he is so able, courageous, and conscientious an officer.

The American people knew that Admiral Schley did his full duty at the naval battle of Santiago, and in the stirring scenes which preceded the destruction of Carver's fleet. The feeling was practically universal that the inquiry (which was demanded by Admiral Schley himself) would result in a complete vindication of his character and reputation against the aspersions cast upon him. That such will be the outcome of the inquiry is becoming more and more apparent.

It seems incredible that any man could carry personal enmity so far as to seek to deprive a brave and courageous officer of any honors won in battle. It is a shameful thing that Admiral Schley was put upon the defensive by the attacks of the creature, Macay, and compelled to demand this inquiry. But it is evidently gratifying to know that the inquiry has served to bring out the truth, which is mighty and will prevail.

IMMIGRATION LEGISLATION.

Our immigration laws will undoubtedly receive a more or less thorough overhauling at the next session of Congress. Public sentiment throughout the country is overwhelmingly in favor of the enactment of more rigid laws governing the influx of foreigners, to the end that the least desirable of would-be immigrants may be excluded, and only those admitted who can understand and in some degree appreciate the blessings which are enjoyed by those who live under this, the best government on earth. There are thousands of such who would make good American citizens, and thousands who would make bad citizens. The former class may safely be admitted; the latter class it will be dangerous to admit, for they are a menace to republican institutions.

While the immigration question is under consideration, the Chinese exclusion law, which is soon to expire, will come up for discussion. The Pacific Coast will, of course, be in favor of the re-enactment of that measure. But there are indications that the Eastern States and those of the Middle West will not be strongly in favor of such action. Those sections reluctantly gave their assent to this law when it was originally adopted, and considerable opposition to its re-enactment is sure to develop there, and to be reflected in the votes of the representatives of those States in both houses of Congress. The re-enactment of the Geary law is therefore by no means assured.

Whatever may be the action of Congress on the question of Chinese exclusion, it will be unfortunate if the consideration of that subject is allowed to obscure or defeat other immigration legislation that is equally important. The Chinese should not alone be singled out for exclusion, when there are so many other undesirable elements which should be barred out of the country. Far more objectionable than the entrance of Chinese into our borders is the immigration of anarchists, criminals, paupers, insane persons, illiterates, the diseased, the lame, the halt, the blind, and other riffraff from the slums of Europe. Congress will do its full and manifest duty in this matter unless it gives the subject the most exhaustive consideration that can be given it. What is wanted is a comprehensive law which shall cover the whole subject of immigration and has never been covered before in the legislative history of the country.

All undesirable immigrants of all countries must be excluded if we are to safeguard the very fountain of liberty and the rights of these citizens, native and adopted, to whom we

must look for the protection and preservation of our government. The doors must be drawn closer, so as to keep out the dangerous classes—anarchists, criminals, paupers, insane persons, imbeciles, and all objectionable individuals of any and every nationality. It is absurd to single out alone Chinese, Japanese, or any other Asiatic for exclusion, solely on the ground of nationality. All persons who are unfit to enjoy the blessings or to appreciate the beneficence of our system of free government should be excluded, without reference to the countries from which they come.

"The doors of Castle Garden (or its successor) never swing outward," at least, they seldom swing in that direction. Those immigrants whom we admit remain with us permanently, as a rule. They "come to stay." For this reason, among many reasons, we should exercise the greatest care as to whom we admit to the close and permanent relations of citizenship. There are immigrants who are desirable, even at this advanced stage of our national development; who have in them the material for good American citizenship; who are industrious, peaceful, law-abiding and honest. We may with safety admit such immigrants as these, and may welcome them to the government, and to the cause of true liberty.

Freedom of speech and of the press does not mean the right to denounce our government, our Constitution, and our laws, nor to teach others that it is right to defy and to oppose these symbols of the people's sovereign authority. The man who incites others to disobedience of the law, whether it take the form of murder or of a less heinous crime, is himself a partner in the crimes which he instigates. He is even more guilty, in a moral sense, than the weak and foolish and vicious men whom he incites to lawlessness.

About the only fault that can be found with the punishment in Johann Most's case is that it is strikingly light.

If any voter has had his doubts as to whether or not President Roosevelt could be "brought up," he should read the President's statement to those South Carolina Republicans, and then sit down and wonder how he ever allowed himself to entertain such foolish notions in his head from second.

CATCH-DOLLAR CONCERN.
The attention of The Times has been arrested by the operations of a number of agents of various catch-dollar concerns seeking to do business in this city under the pretense of more or less glittering benefits, near or remote, to accrue to the investors, subscribers or "jiners."

Some of these promoters are selling stock; others are advocating some new scheme for benefit insurance, or cooperative investment of savings; while still others are soliciting recruits for some alleged-to-be fraternal organization. If these agents and drummers were confined to the nests of the organized and promoters, and not purely and simply for the aid and advantage of those whose dollars are solicited. The Times would have little to say, but, as a matter of fact, they are at work largely among laboring men, working women and minors. They are tackling servant girls, trolley-car men and bell boys. They are running for the savings of small wage-earners.

Neither The Times nor any other newspaper can investigate the merits of all these schemes. It may be said, here and now, however, that many of them are humbugs—that most of them are designed to feather the nests of the organized and promoters, and not purely and simply for the aid and advantage of those whose dollars are solicited. The Times nor any other newspaper can investigate the merits of all these schemes. It may be said, here and now, however, that many of them are humbugs—that most of them are designed to feather the nests of the organized and promoters, and not purely and simply for the aid and advantage of those whose dollars are solicited. The Times would have little to say, but, as a matter of fact, they are at work largely among laboring men, working women and minors. They are tackling servant girls, trolley-car men and bell boys. They are running for the savings of small wage-earners.

In the light of the great principles which they represent, the by-laws of deliberative bodies, on the other hand, like the statutes of a State, are strict and literally adhered to. Unless induced by inadvertence to violate some one of the great principles of deliberative procedure, in which case they are inoperative. Hence, too, the knowledge of parliamentary law is necessary in order that the laws of an organization may be valid.

"Parliamentary law is the greatest means of effecting justice and equality in the proceedings of deliberative assemblies. It tends to establish equality of rights among the individuals constituting the body, and thus to remove all causes of complaint.

"It is not exact science, it is also an art, less difficult to observe than to practice.

Mrs. Clark, in the course of her lecture on the evolution of the two great parties of the United States, designating as the principle of their division what she termed the great fundamental difference in the attitude of human minds generally toward law—the principle of loose or close interpretation, which finds its extreme expression in anarchy or in individualism on the one hand, and in totalitarianism or in socialism on the other.

Progress Club.

The Progress Club has again taken up its work after the summer vacation.

At a recent meeting held at the residence of Mrs. Summers, a committee appointed at a previous meeting submitted resolutions on the life and assassination of our beloved President.

Mr. Williams, Merton, resolution was unanimously adopted and ordered placed on the minutes.

Greek literature is the subject outlined for study during the year.

The progress Club has appointed a paper on "Economic Society as Described by Homer," by Mrs. J. B. Monlux, and reading in the first book of the Iliad by members of the club.

The next meeting will be held on the evening of October 15, at the residence of Mrs. J. B. Monlux.

DAIMON OF WONG.

Chow's Creditors Visit the United States Marshal's Office in Hope of Procuring a Settlement.

Sullen and disheartened over the failure of his attempt to override the laws of the "Mammoth" man, Wong Chow is still confined in the County Jail, being held under bond warrant issued by United States Commissioner in El Paso, Tex., but it is practically certain that meantime he cannot escape on habeas corpus proceedings.

The United States Marshal's office has been visited by the creditors of Wong's creditors, who sought him in order for interviews with him, in the hope that they might receive what is owing to them.

Wong borrowed \$100 from one man last Wednesday. The money was put up at auction, and Wong offering the highest rate of interest, he got the loan. Among his creditors is one lone woman, to whom he owes \$600. She brings her claim directly, and, however, the fact that she should have lost him have so large a sum.

It is thought not unlikely that proceedings will be instituted to have Wong deported to Los Angeles instead of from El Paso. By doing the expenses of taking the prisoner to El Paso and bringing him back again would be saved to the government.

SOFT, GLOSSY HAIR.

It can only be had where there is no dandruff.

Any man or woman who wants soft glossy hair must be free of dandruff, which causes falling hair. Since it has become known that a person can grow hair again after having lost it, many persons have been induced to have their hair restored.

There are many persons who have been abandoned, and the public, barbers and doctors included, have turned to using Newberg's Herpicide, the only preparation that kills the dandruff germ. Dr. Edward D. Stevens says: "Herpicide not only cures the scalp from dandruff and prevents the hair falling out, but promotes a new growth. Herpicide keeps my hair very glossy."

THE PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

As a last resort the report of the Chief of Police on the places that sell liquor without a city license was yesterday referred to the City Council committee of the whole, in conjunction with the Police Commission and the Chamber.

A contract for sixty lamps to illuminate the public market was promptly turned down by the market minority yesterday.

More protests and petitions in the controversy between the gas companies were filed yesterday.

Theodore Fulton, "ticket scalper" clerk, was fined \$50 for contempt of court yesterday.

Armenians concluded yesterday in the water-bond demurser and now the fate of the issue is in Judge William's hands.

The Supreme Court began its October session in Los Angeles yesterday.

The will of William H. Purcell, deceased, who died in Switzerland last July, leaving property valued at \$100,000, was filed for probate yesterday.

Half a dozen women who have been hanging around the tough saloons, were arraigned in the Police Court yesterday on a charge of drunkenness. One pleaded guilty and three more were convicted.

REPORT OF CHIEF TOO MUCH FOR CITY COUNCIL.

Illicit Liquor Selling Will Be Considered by a Joint Committee—Potpourri of Council's Legislative Enactments at Yesterday's Session.

When the report of the Chief of Police on the places that sell liquor without a city license was taken from the table by the City Council yesterday afternoon, Mr. Todd was conspicuous by his absence. But a short time ago the representative of "do ate" was anxious to get hold of the report. Now he does not seem quite so eager to face the music.

There was a pause after the clerk announced that action had been deferred on the report one week ago. Mr. Bowen rose slowly to his feet and glanced around the Council chamber. Then he said:

"At this crucial moment I am sorry that Mr. Todd is not here to apply his balsam and sovereign remedy to this question. When I asked a man's name to investigate the illicit sale of liquor I had no plan in mind. Yesterday I hoped to put parties on record who take out a government license to sell liquor. This I have found to be legally impossible. Now I would like to have some of my colleagues try their hand at solving the problem."

Mr. Bowen's remarks were followed by a pause longer than the first. Finally Mr. Pierce came to the rescue with a plan for the further possible action of the gas war action shall be taken.

"These matters come particularly under the supervision of the Police Commission," said Mr. Todd, "and I think that a consultation with the members of that committee might be a move that the report be referred to the Council Committee of the whole in conjunction with the Police Commission and the Chief of Police."

It was so ordered, but the time for the joint session to consider the Chief's report has not been fixed. The Council finds it has a white elephant and is looking for the King of Siam.

STREET APPEAL DENIED.

After several postponements the appeal of William P. Brown against the decision of the Street Superintendent accepting the work of improvement on a guerilla street between Second and Fourth street came to a hearing yesterday.

The controversy hinges on a difference in street lines of two surveys. The King line, which is approximately the City Surveyor's original 50-foot width of the Compton line, which Mr. Walker believes to be the accurate survey.

Mr. Brown addressed the Council yesterday. He stated that there are various monuments in the street to show that the Compton line is the correct one. If the line favored by the City Engineer is taken as official, he said, the great damage would be done to property. This line passes through the Friends' Church, which, according to the survey, is now fourteen inches in the street. The church is not a "regular" street, but the cement turns out establish the lines of the intersecting street upon which it is situated.

Z. T. Snyder made a speech in which he told of the inutility done by the King line. He said that Mr. Bell's house is on Mr. Brown's property, and many of the residents do not know exactly where they live. It is in case of fire that the title to property in the neighborhood because of the discrepancy in the lines. Mr. Snyder is a man of the people.

THE BANDAGED GUN OF GREEK SOLOMON.

SEVERUS SOLOMON, that Greek imitation of Cagliostro, who was found wandering about Fifteenth and San Pedro streets with a pistol wrapped up in a handkerchief, was investigated in the Police Court yesterday, and the police now know almost as much about him as they did before. The only thing that could be gotten out of Solomon was \$20; that was the sum he had in his pocket for carrying concealed weapons. Why he was carrying a pistol wrapped in a handkerchief is just what they didn't learn.

He is an insignificant, undersized little runt with eyes the color of a smitten cat; and they shift. He has a shapless, uncertain, lumpy kind of face, and one of his fingers is broken. Finger has been broken. He does not speak English and wisely let his brother steer him through the wilderness and also pay his fine.

His brother is a fruit pedler, John Solomon, who lives at San Pedro and Fifteenth streets. John was his

going to his brother's house and a bigger came out and demanded a money, and not being able to understand English he ran away.

The court, who asked, "But if he did not understand English how did he know what he demanded, and why did he run?"

He then said Officer Moore was the interpreter, cheerfully raising a howl of laughter in the court for Officer Moore to be held responsible.

Without further adieu, Justice Morgan sentenced Solomon to pay a fine of \$20 or do ten days in jail. The brother dug down in his coat and paid the fine.

After the case was settled, Solomon was interviewed (through his all-perceiving brother, of course), by a Times reporter.

"What does your brother do?"

John replied that he was a shoe-maker by trade, but having been over from Greece only five months he did

not know the language well enough to run a shop and was helping him a little in his fruit business.

"Why did he carry that pistol wrapped in a handkerchief?"

not know the language well enough to run a shop and was helping him a little in his fruit business.

"Why did he carry that pistol wrapped in a handkerchief?"

After telling the "whole" story over again about five times the handkerchief point finally penetrated the head of Brother Solomon and he talked it over with his brother in Greek.

"He says that he did not have the pistol in his pocket but in his hip pocket. The policeman fixed it that way."

In the course of the questioning, Solomon contradicted Officer Moore's story. He said that the pistol was in his coat pocket but not in his hip pocket.

When he saw what he supposed to be the colored man, his right hand was in his coat pocket, and instead of taking it out of his coat he had his pocket and all around to the left. It was then that Moore pounced down on him and in pulling out the pistol from his trousers, drew a handkerchief out with it.

"Who was your brother going?"

"He was coming home to my house."

"Where had he been?"

"He had been to see some friends on Main street."

The brother said the pistol was his and intended to have it back. He hung around for an hour or more waiting for the court to adjourn so he could make his move. He finally got up and left Court Street to wait for the policeman to come up, he saw the Greek and his hand back to his hip pocket. He grabbed the hand and captured it in pulling out the pistol from his trousers, drew a handkerchief out with it.

TROLLEY ASSURANCE GIVEN IN SANTA ANA.

LINE TO LOS ANGELES IS TO BE BUILT SOON.

Difficulty in Obtaining Material at the East the Only Drawback, According to Manager. Tolls of the Interurban Company—Santa Ana Brevities.

SANTA ANA, Oct. 14.—[From The Times' Resident Correspondent.] Manager E. I. Toole, who has been in Los Angeles in conference with the representative of the interurban electric railroads of this city and Los Angeles will be built by that company within a very short time; that his people experienced considerable difficulty in getting material from the East for use in construction, and consequently the time of beginning work has been unavoidably delayed, and it was necessary, therefore, to secure extension of franchises, both in Los Angeles and Orange counties. These extensions have now been secured, and Toole expresses himself as confident that construction will be started at both ends just as soon as the material can be obtained, and this is expected long.

FULLERTON.
HIGH-SCHOOL ROWDYS.

FULLERTON, Oct. 14.—[From The Times' Resident Correspondent.] There was a good deal of complaint here Saturday and Sunday nights, as the whole town was in darkness, the electric lights being out in the business houses, church halls and residences.

The president of the High School middies was waylaid a few nights ago by a rowdy bunch, who, in the course of their rowdiness, cut off a part of his hair, cut off with a dull pocketknife. It is also stated that members of the middle class have been insulted by the senior class, who threaten to beat other middle boys as they stand. The president, S. Armor, is condemned by the better class of people of the town, and they want this rowdiness stopped.

IMPERIAL ZOLLVEREIN IMPRACTICABLE.

Mr. Chamberlain has long nurtured this idea of a great imperial sovereign, but the closer the details of his scheme are examined the greater become the faults and difficulties. The interests are so manifold and diverse that there does not seem to be any reasonable ground for combination. The trade of some may center in Great Britain, but in by far the larger number of cases the home market could not begin to absorb or even to merchant the colonial products and to force demands upon the authority and responsibility of citizens were present.

Some who were upon the colonies demanded that England maintain a great empire and Russia treat their possessions after this fashion. As soon as a territorial market to which only French products can find entrance. Why should England maintain a great empire whose trade is open to the world instead of monopolizing for herself a good portion of the profits to be derived from this trade?

The Sultan of Turkey May Grant a Charter for Palestine Which Would Be a Place of Refuge.

BY THE NEW ASSOCIATED PRESS.—M. I. NEW YORK, Oct. 14.—The London correspondent of the Press sends the following interview with Israel Zangwill upon the Zionism movement. Israel Zangwill, the novelist, poet and playwright, concerning the coming conference of the Zionists, in Basle, Switzerland, said:

"It is not impossible that Dr. Herzl may have a great surprise for the world. He has been negotiating with persons who are not Zionists, for a charter for Palestine, and it is possible that he has obtained that charter. It seems likely, at any rate, that the charter will be signed in a month or two months. Once the charter is signed, much larger contributions should be obtained. We have at present about \$10,000,000 more than from three or four millionaires. After the charter is signed and the money is raised, the poor will follow among the Jews will have a place of refuge at last."
